Benefits of Using Maverick for Staffing

- **Maverick has Educated 1000's of Engineers over the last two decades.**

Maverick has trained Engineers and Designers on CATIA, Solidworks, AutoCAD, ProEngineer, Inventor, MasterCAM and more over the years. Our database of Engineers is vast and our ability to evaluate their skills is unsurpassed..

- **Support team at Maverick Solutions Inc..**

Any contractor supplied by Maverick, has the option to call our instructors to assist when there are CAD technical areas that are unfamiliar to the contractor..

- **Upgrade and Skills Development Training.**

As Maverick Solutions Inc. has a division dedicated to Training on many CAD/CAM software. The Contractors from Maverick can be updated on new releases and/or new functionalities and disciplines that may be required in during the contract.

We go above and beyond to meet the needs of our Workers and our Clients!

Maverick can offer an invaluable service to employers in their search for the right person for the job, whether on a permanent or a contract basis.

We can help you match your staffing requirements with our highly qualified and experienced candidates in the most effective way.

Our professionalism, dedication and ability to consistently provide the right candidate have resulted in the forging of long-standing business partnerships with some of the most successful companies in North America.

Maverick Solutions Inc. is a modern recruiting firm with a dedicated team of recruitment consultants who guarantee you access to highly qualified and experienced candidates.

We compliment our search techniques with an evaluation and selection process that is designed to identify and select those individuals who consistently outperform their peers and colleagues.

We take the time to personally meet our candidates, and to gain a complete understanding of their personal and technical strengths, attributes and goals.

Our superior search and service capabilities, and meeting our clients and our candidates enables us to accurately match technical requirements, work environments and company cultures and that is how we are able to put the right candidate forward the first time!
